

The Alberta Teachers' Association, in collaboration with Safe and Caring Schools & Communities, is hosting a conference on the theme of youth mental wellness.

“Can We Talk? Communities and teachers supporting mental wellness” is a one-day no charge event which will take place at the Lethbridge Lodge on May 7, 2012. Mark your calendars!

This event was successfully sponsored in Edmonton in 2010 and Red Deer in 2011 primarily due to the powerful breakout session provided by area service providers, related government ministry personnel and non-profit organizations.

We are once again seeking break- out session speakers for 75 minute sessions. If you have a program, strategy, information, research or a partnership that serves the mental wellness needs of youth, you would be an ideal speaker. Preference will be given to speakers from the southern Alberta area.

Please visit the Can We Talk? Website at www.canwetalk.ca and download a proposal form. We are seeking submissions by March 1st 2012.

If you know of other service providers in the southern Alberta region who would be interested in this opportunity to present, please forward this email to them. Conference registration information will also be posted on www.canwetalk.ca in the near future.
